<b>Office Action Summary</b>	<b>Application No.</b> 09/486,981	<b>Applicant(s)</b> AOKI ET AL.	
	<b>Examiner</b> ELVIS O. PRICE	<b>Art Unit</b> 1621	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 10 June 2008 and 30 July 2008.
- 2a) ☐ This action is **FINAL**.                      2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### **DETAILED ACTION**

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/30/08 has been entered.
2. Claims 1-4 and 16-19 and are pending in the application.
3. Applicants' amendments, filed 6/10/08, have overcome all rejections and claim objections issued in the Office Action dated 4/9/08.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1-4 and 16-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Saito et al. {EP 706997 A1; see US Patent equivalent, US Pat. 5,705,452}.

Saito et al. teach the presently claimed phenolic molecular compounds having Sulfonyl functional groups substituted on the phenol rings and wherein the present variables X, A, and B, as defined in the present formulas II through V, are a SO<sub>2</sub> group (see listing of sulfonyl compounds in Cols. 2-4 and phenolic compounds in Col. 5). The difference between the presently claimed invention and what is taught by the Saito et al. reference is that the scope of molecular compounds presently claimed overlaps the scope of molecular compounds taught by Saito et al.

The presently claimed invention would have been obvious to one having ordinary skill in the art, in view of the Saito et al. reference, because Saito et al. teach molecular compounds which are encompassed by the presently claimed molecular compounds. One having ordinary skill in the art would have been motivated to use any of the listed sulfonyl compounds, taught by Saito et al., as developers. Therefore the presently claimed molecular compounds would have been obvious to one having ordinary skill in the art.
